PROFILE

Senior Frontend Engineer with 10+ years of commercial software development experience, specializing in Vue.js, Nuxt.js and TypeScript. I build scalable web and mobile products across SaaS, e-commerce, healthcare, proptech and data-heavy platforms. Strong in frontend architecture, performance, complex user flows, API integration and technical delivery. I use modern AI coding tools for code analysis, implementation, refactoring and workflow automation.

01 EXPERIENCE

Senior Frontend Engineer

Sep 2019 - Sep 2026

e-vybir · Ukraine / remote

- Led long-term frontend development of a Ukrainian marketplace combining e-commerce, geospatial search, subscriptions and content services.
- Built complex Vue/Nuxt interfaces, cadastral maps, search, filtering, geolocation, real-time functionality and third-party integrations.
- Participated in frontend architecture, technical decisions, project planning and delivery.

stack Vue 3 · Nuxt 3 · TypeScript · Pinia · PBF · Leaflet · Chart.js · WebSocket · Vitest · GitLab CI

Senior Frontend Engineer

Dec 2025 - Aug 2026

Greetings Island / WishWave · remote

- Helped launch a cross-platform wishlist and gift-registry product for web and mobile.
- Owned complex features, architecture decisions and production delivery in a pnpm monorepo.
- Built reusable architecture supporting SSR web and mobile SPA experiences.

stack Vue 3 · TypeScript · Quasar · Pinia · pnpm · SSR · Capacitor · SCSS

Senior Frontend Engineer

Mar 2022 - May 2026

LITSLINK · remote

- Delivered complex Vue/Nuxt products across healthcare, proptech and SaaS.
- Built multi-step workflows, dashboards and data-heavy interfaces; integrated REST/GraphQL services and supported technical planning.

stack Vue 2/3 · Nuxt · TypeScript · GraphQL · Quasar · TestCafe · Ionic

Middle Full-stack Web Developer

2019 - 2022

Simplex-Med · remote

- Built healthcare patient, doctor, admin and support portals; developed real-time chat and ticketing workflows and led delivery tasks.

stack Vue · Vuex · Vuetify · Redis · Socket.IO · Laravel / Apiato · MySQL

Full-stack Developer

Oct 2016 - Feb 2021

UBC Group - Innovation Department · Kharkiv, UA

- Built and maintained logistics, administration and IoT platforms with REST integrations, role management, maps and data-heavy interfaces.

stack PHP · Laravel · JavaScript · Vue.js · React · Redux · REST API · MySQL

02 EDUCATION

Master's - Specialized Computer Systems
National Aerospace University · "Kharkiv Aviation Institute"
2016 - 2018

Bachelor's - Computer Systems & Networks
National Aerospace University · "Kharkiv Aviation Institute"
2012 - 2016

03 TECHNICAL SKILLS

FRONTEND

Vue 2/3 · Nuxt 2/3/4 · Vuex · Pinia · TypeScript · JavaScript ·
React/Redux · Angular · Vuetify · Quasar · Tailwind ·
SCSS/BEM

BACKEND

PHP · Laravel · Apiato · MySQL · Redis · REST · GraphQL

MOBILE & REAL-TIME

Capacitor · Ionic · PWA / SSR · WebSocket · Socket.IO

MAPS & DATA VIZ

Leaflet · Vector Tiles (PBF) · Chart.js · Geospatial data

TOOLING & TESTING

Vite · Webpack · Vitest · Jest · TestCafe · Git / GitLab CI/CD ·
pnpm · Docker

AI & PRACTICES

AI-assisted coding · workflow automation · frontend
architecture · performance · Agile / Scrum · technical
leadership
